for Retailers

from the Stock Inventory Management team

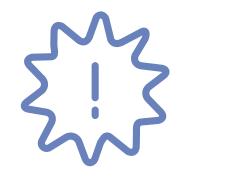

Using Stock Inventory Management system for retailers as a user.

SCENARIO

How does someone initially become aware of this process?

Enter

Syncing the shops with the inventory

What do people experience as they begin the process?

Engage

In the core moments in the process, what

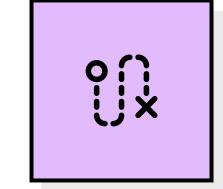

What do people typically experience as the process finishes?

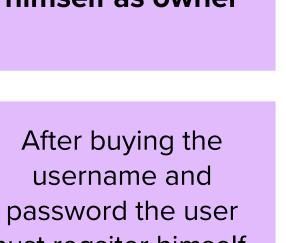

Extend

What happens after the experience is over?

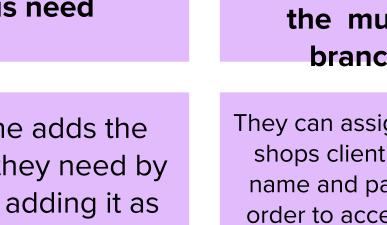

Stock Inventory Management System

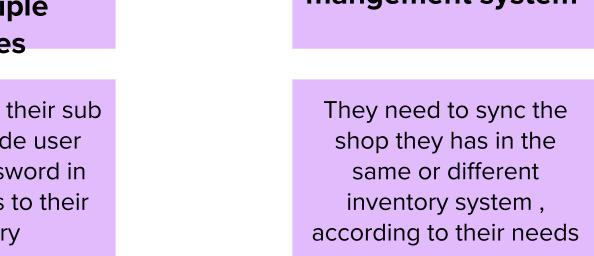

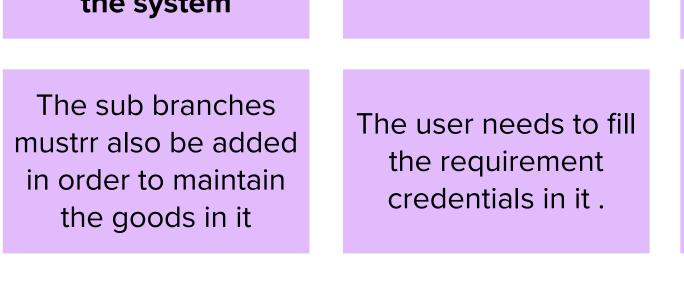

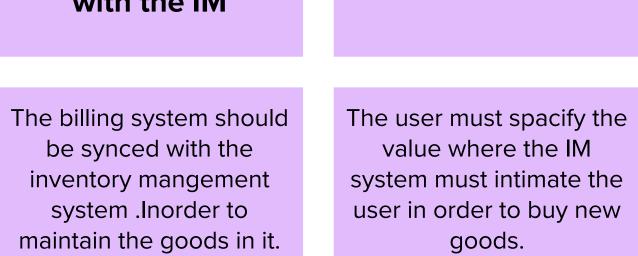

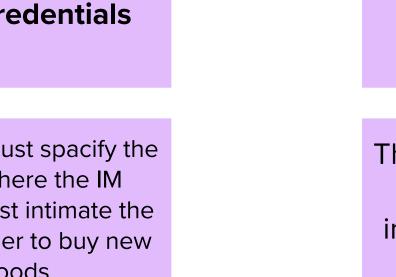

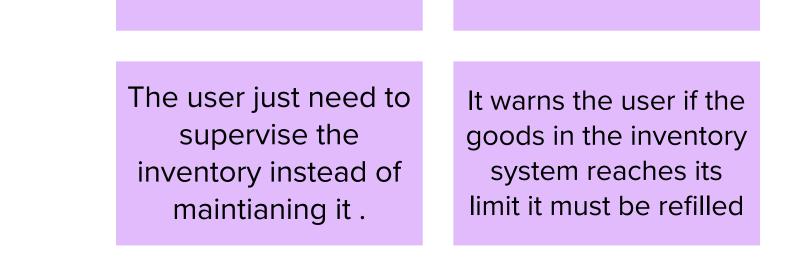

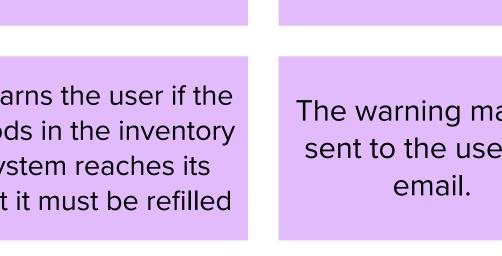

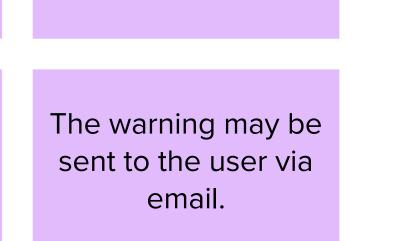

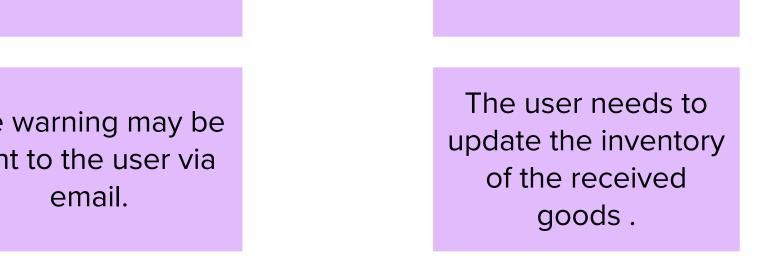

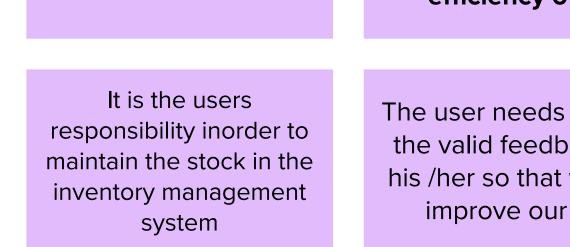

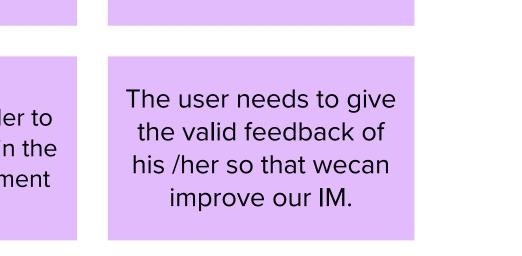

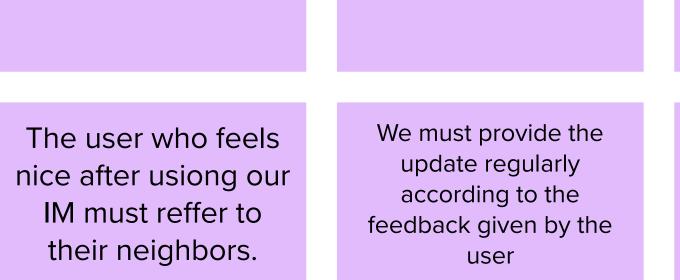

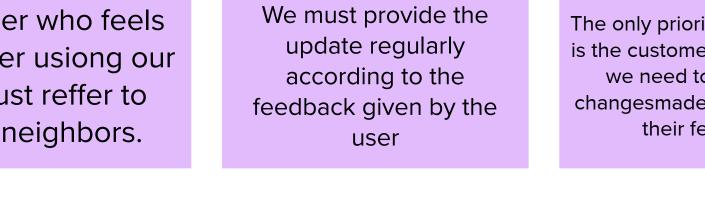

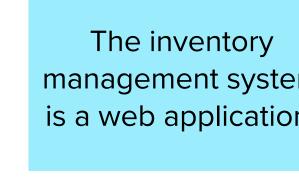

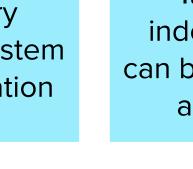

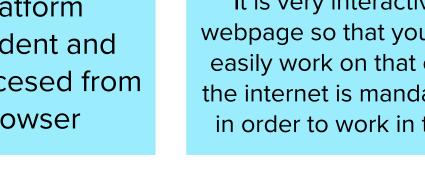

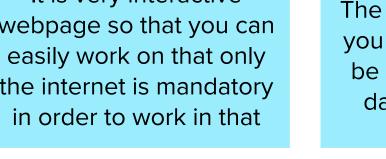

What interactions do they have at each step along the way?

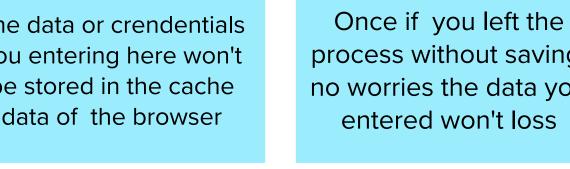

- People: Who do they see or talk to?
- Places: Where are they?
- Things: What digital touchpoints or physical objects would they use?

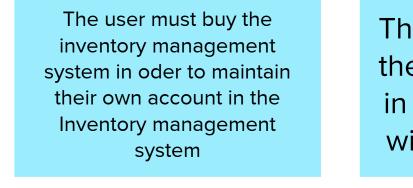

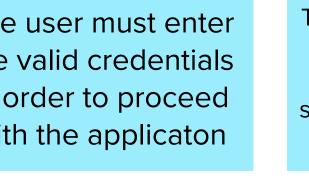

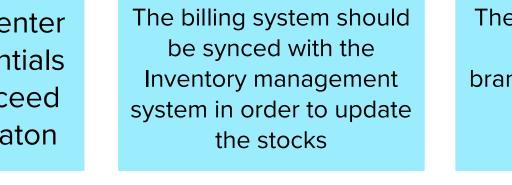

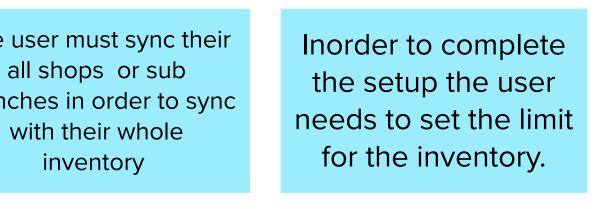

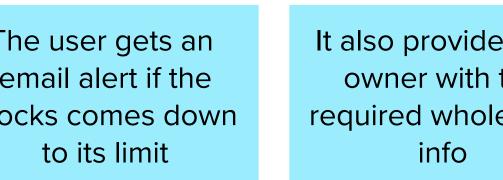

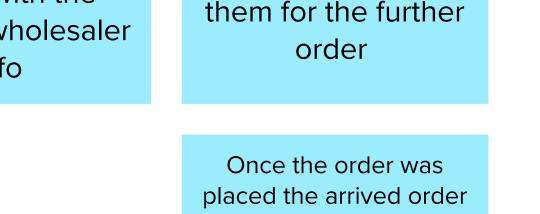

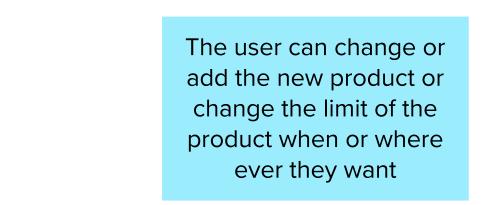

must be updated on the

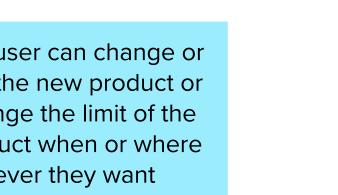

inventory mangement

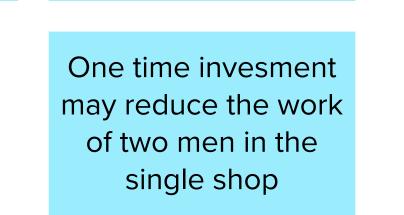

The user can change the

limit of the inventory mangement system by order of their sales rate of

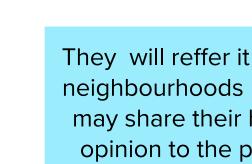

the products

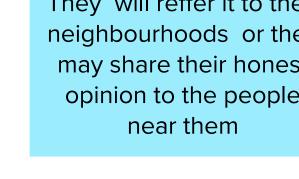

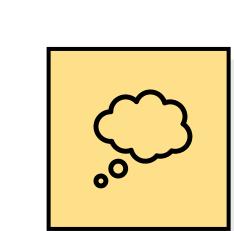

There will be lot more financial benifits to the user

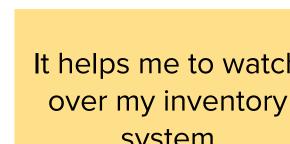

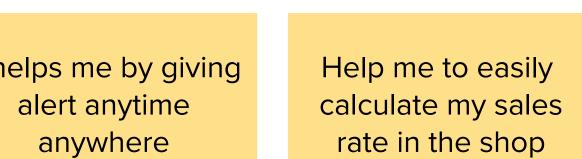

Goals & motivations

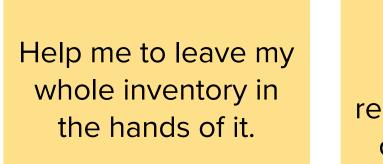

At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")

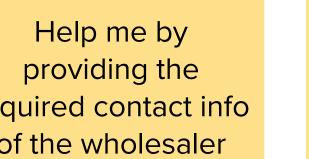

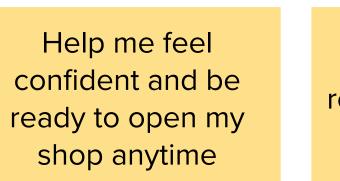

It helps me to watch over my inventory system

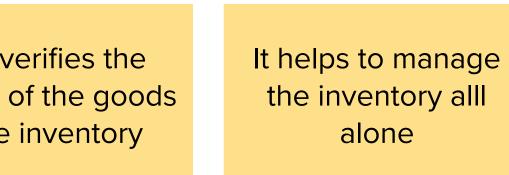

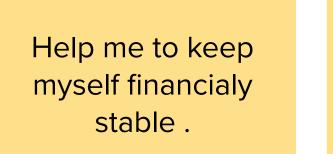

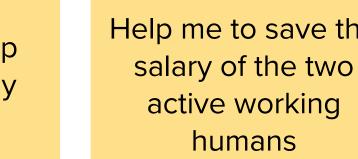

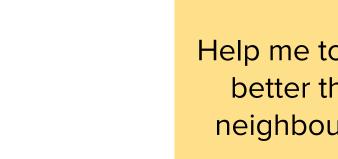

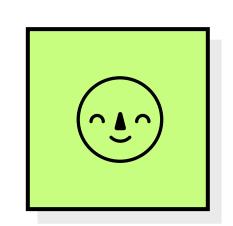

better than my

Helps me to reduce my burden in my shop.

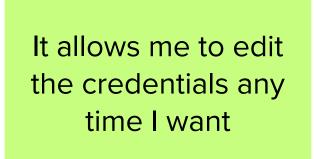

Help me to ensure the goods of the inventory

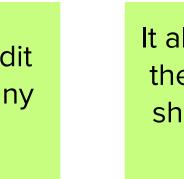

the customer

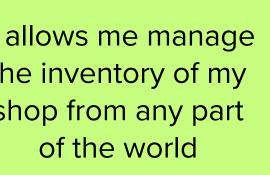

Positive moments

What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?

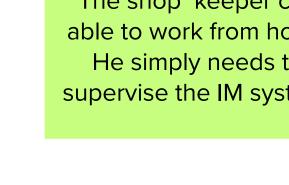

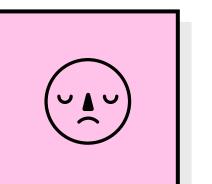

without the pressure

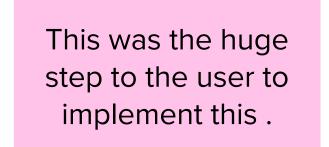

The shop owner doesnt need to bother about watching the goods in the inventory managament

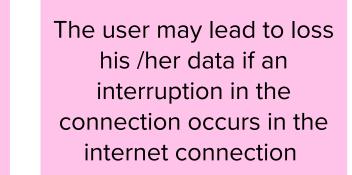

Negative moments

What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?

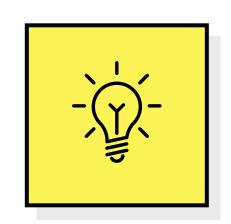

If the user enters the Invalid credentials may lead to the wrong results

The IM system will be useless if the shutdown takes place in that area and the data should be

the connection side if occurs

The customer won't share the info or the give the worst feedback if they face any technical issue from their side

Areas of opportunity

How might we make each step better? What ideas do we have? What have others suggested?
